

DISPOSABLE VINYL GLOVES

SHIELD^{me}TM VINYL GLOVES are 100% latex and powder free. These gloves are ideal for users with latex allergies.

Delivers proven protection for all your healthcare needs. Smooth finish for increased tactile sensitivity and wearer comfort. The thin, disposable, vinyl gloves are the most common gloves used by healthcare staff, restaurants and cleaners. It is important to remember that thin vinyl provides only limited chemical protection. These gloves are intended to be used only as a physical barrier against brief contact with chemicals, and they need to be removed and discarded immediately after they become contaminated.

The gloves are the choice of leading labs due to their comfort wear and excellent tactile sensitivity.
