

SHIELD^{me}™

MEDICAL FACE SHIELD

SME-MFS01

SHIELD^{me}™ MEDICAL FACE SHIELD is used in medical institutions, by general public, disinfection and sanitization team. Medical Face Shield protects and prevents the entry of toxic liquid spatter or splash, harmful air borne microbes, dust into your mouth, nose and eyes. It also prevents you from touching your eyes, mouth and nose subconsciously.

The lenses are made of high-quality PET and high light transmitting material, transparent and clear enough to ensure not affecting the normal vision of the human eyes and can be worn together with glasses.

Product Performance Features

- ✓ Overall ergonomic design, lightweight and more comfortable to wear.
- ✓ Made of polymer materials to effectively prevent foreign body impact and liquid spatter.
- ✓ The lenses are made of high-quality PET and high-transparent material with high clarity.
- ✓ Easy to adjust head band and suitable for all kinds of head size.
